EXTENSION OF TERM

NOTE: "Extension of Time in Patent Cases (Supplement Amendments) — If a timely and complete response has been filed after a Non-Final Office Action, an extension of time is not required to permit filing and/or entry of an additional amendment after expiration of the shortened statutory period.

If a timely response has been filed after a Final Office Action, an extension of time is required to permit filing and/or entry of a Notice of Appeal or filing and/or entry of an additional amendment after expiration of the shortened statutory period unless the timely-filed response placed the application in condition for allowance. Of course, if a Notice of Appeal has been filed within the shortened statutory period, the period has ceased to run." Notice of December 10, 1985 (1061 O.G. 34-35).

NOTE: See 37 C.F.R. § 1.645 for extensions of time in interference proceedings, and 37 C.F.R. § 1.550(c) for extensions of time in reexamination proceedings.

NOTE: 37 C.F.R. § 1.704(b) ". . . an applicant shall be deemed to have failed to engage in reasonable efforts to conclude processing or examination of an application for the cumulative total of any periods of time in excess of three months that are taken to reply to any notice or action by the Office making any rejection, objection, argument, or other request, measuring such three-month period from the date the notice or action was mailed or given to the applicant, in which case the period of adjustment set forth in § 1.703 shall be reduced by the number of days, if any, beginning on the day after the date that is three months after the date of mailing or transmission of the Office communication notifying the applicant of the rejection, objection, argument, or other request and ending on the date the reply was filed. The period, or shortened statutory period, for reply that is set in the Office action or notice has no effect on the three-month period set forth in this paragraph."

RESPONSE

This is a response to the Restriction Requirement of the USPTO dated March 25, 2003.

The applicants elect to prosecute the claims of invention I, Claims 1-12, drawn to an absorbent composition without traverse. Accordingly, the applicants request that Claims 13-24 be cancelled, recognizing that these claims can be revived in a later filed divisional patent application.

The applicants further advise the USPTO that the inventorship is unaffected by this cancellation of claims and thus need not be amended.

The applicants believe that it is unnecessary to respond to the other points discussed in the Office Action, particularly those

concerning an election of a species, as those other points were only at issue if a different invention was elected.

CONCLUSION

The applicants believe that by this response they have fully addressed all issues raised by the USPTO. However, if there are any additional issues, please contact applicants' counsel by telephone.

Respectfully submitted,

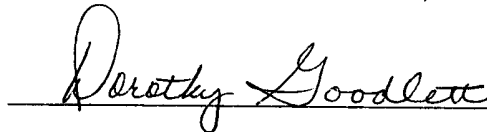

Scott R. Cox
